Education

KJ College of Engineering and Management Research, Pune

Bachelor of Engineering in Electronic and Telecommunication

SGPA: 7.17

2022 - 2026

Experience

AI-ML Virtual Internship

OCT'24 - DEC'24

India

- Completed a 10-week virtual internship focused on Artificial Intelligence and Machine Learning under the India Edu Program.
- Gained hands-on experience in building ML models, data preprocessing, and working with real-world datasets using Python and AI frameworks..

Data Analyst Internship— Vodafone Idea Limited

OCT'24 - NOV'25

India

- Successfully delivering two data analysis projects that addressed real-world business challenges. Applied Python libraries (Pandas, NumPy, Matplotlib, Seaborn) for data manipulation and visualization.
- Gained hands-on experience in data analytics, including data collection, cleaning, and visualization using tools like Python and Excel.

GirlScript Summer of Code (GSSOC) Contributor

2024

India

- Ranked 181 out of 3000+ contributors in competitive open-source program. Contributed to multiple repositories with focus on frontend bug fixes and UI improvements .Collaborated with global developer community using Git workflows and code reviews

Projects

Simon Say Game | *HTML, JavaScript, CSS*

- Developed a web-based “Simon Says” memory game using HTML, CSS, and JavaScript.
- Implemented dynamic generation of increasingly complex color/sound sequences, and logic to check user input against the sequence.
- Built an interactive Simon Says game that challenges short-term memory and reaction time — highlighting frontend skills and attention to detail.

Capstone Project | *Python3, Google ADK, Google Gemini, InMemoryRunner ,Kaggle Secrets API*

- Built an AI-powered customer support agent using Google ADK and Gemini (1.5 Flash / Pro).
- Integrated custom tool calling including product search, product details lookup, and complete catalog listing.

TO DO LIST | *React.js*

- Developed a clean and responsive To-Do List web application using React.js and JavaScript (ES6+).
- Implemented core task-management features including adding new tasks, marking tasks as completed, and deleting tasks.

Technical Skills

Languages: Java, Python, SQL

Frontend: HTML5, CSS3, React.js, Next.js, JavaScript (ES6+),

Fundamentals: Data Structures & Algorithms, Object Oriented Programming, Database Management System, SDLC

Extra-Curricular

- Qualified TCS CodeVita Season 13 – Round 1
- AWS Solutions Architecture Job Simulation, Forage
- Qualified AVISHKAR 2025 Zonal Research Competition
- Techathon 2.0 Innovation Foundation
- Participated in Poster and Projects competition at College Level
- Managed Multiple Events With 2000+ students
- Actively participating in various **Bootcamp**
